

# MANCHESTER COLLEGE OF COACHING AND HYPNOTHERAPY

## Accredited Training in Greater Manchester, Birmingham and Glasgow

The Manchester College of Coaching & Hypnotherapy aims to give you sound theoretical principals in addition to receiving extensive practical-based learning. We provide both face to face teaching as well as virtual training from our customised training suite in Carmyle, Glasgow. MCCH prides itself on a high trainer-student ratio and flexible training opportunities. The course draws on the work of Milton Erickson but also includes David Grove and Ernest Rossi, all of whom have contributed greatly to our knowledge of modern day hypnotherapy. In addition the modules include a wide range of NLP techniques which can be used either in traditional hypnosis or alert states. More recently EFT and EMDR have been added to the curriculum, which are frequently used in the treatment of anxiety and PTSD. This course provides the knowledge, tools and expertise for anyone wishing to set up in business as a fully qualified accredited Clinical Hypnotherapist and Coach.

**The Practitioner Clinical Hypnotherapy Course constitutes 9 modules.** The first 4 modules, known as the Certificate, cover the background principles and processes of hypnotherapy thereby providing a solid framework for further learning. On the successful completion of the course you will receive a **CCH which denotes a Certificate in Clinical Hypnotherapy. You will also receive a Life Coaching Certificate on completion of the Life Coaching Module.** This will enable you to offer stress management, directive hypnosis dealing with issues of confidence, weight, smoking, pain and performance anxiety. You can also teach your clients self-hypnosis.

Please note: the certificate does not entitle you to become a full member of an Association and it is recommended that you continue to take the further 5 modules if you want to have the full benefits of Association membership. The further 5 modules known as the Diploma build on the core learning and theory of the Certificate and focus on how to treat a variety of conditions as well as how to run a successful hypnotherapy practice with reference to professional ethics and patient care. The 9 modules constitute **120 classroom hours**. The essential components of the Diploma are: resolving emotional traumas, regression, fears and phobias, addictions and obsessive compulsive disorders as well as solution-orientated techniques for a number of common clinical conditions. The **DCH** will be awarded on satisfactory attendance and a 70% pass mark in both the practical and theoretical exam in addition to supervised clinical practice throughout the course and submission of 3 case studies. Being in receipt of a **DCH** means you have successfully achieved **Practitioner** status and can apply for membership to a variety of professional organisations including the GHR, IHA, BSCH and others.

### ELIGIBILITY

The certificate course is open to anyone who has a general interest in hypnotherapy, has essential people skills and would like to improve their relationship with self and others. There will be a telephone or face to face interview prior to acceptance. It is also the foundation for anyone wishing to pursue a career in hypnotherapy and will give course participants a range of processes and procedures which will create the opportunity for positive change within their clients. Please note: those students wishing to gain the Diploma must first complete the certificate\*. If you are already a qualified hypnotherapist you may wish to complete a specific module and in this instance you would receive a CPD Certificate of attendance. *\*The trainer reserves the right to recommend postponement of the diploma or refuse progression on a course if there are concerns around health or inappropriate behaviour during the course.*

### COURSE FRAMEWORK

The Manchester College of Clinical Hypnotherapy can tutor on a one to one basis or in a group learning situation. It is also deemed important that self development is a core element of the course and participants are expected to be involved with practical learning on themselves and other members of the group.

## COURSEWORK

Students are expected to carry out essential reading both for the Certificate and Diploma courses as well as reading their core notes. In addition, there is self-directed learning which constitutes assignment work, case studies, informal research, script writing, watching online therapeutic treatment and preparing for the exam. Students are also required to practise throughout the course to enhance their practical skills. A written exam takes place on Module 5 of the Diploma. The total hours including classroom hours, reading and self-directed learning are 450; which is the minimum requirement of the CNHC which regulates the course work for the accrediting bodies such as the GHSC or the IHA.

## ASSESSMENT

There is continual assessment throughout the Certificate and Diploma courses including assignments and a practical exam. On satisfactory completion of the first 4 modules, students will be awarded a certificate (CCH and Certificate in Life Coaching. Successful completion of the Diploma will require a 70% pass mark in both a written and practical exam as well as submission of three case histories. The practical exam requires the student to be able to induce trance and facilitate therapeutic treatment. Students will be able to use the letters DCH.

## ACCREDITATION

The Certificate and Diploma courses are validated externally by the General Hypnotherapy Standards Council [www.ghsc.co.uk](http://www.ghsc.co.uk), the International Hypnotherapy Association, [www.ihahypnotherapy.com](http://www.ihahypnotherapy.com), the British Society of Clinical Hypnosis, [www.bsclhypnosis.org.uk](http://www.bsclhypnosis.org.uk), and internally by the International Institute of Professional Coaches and Hypnotherapists, [www.iipch.co.uk](http://www.iipch.co.uk). Insurance can be obtained from Townergate Insurance, Howdens or Balens amongst many others.

---	---

The Diploma consists of no less than 70 classroom hours. You will also be required to read from the suggested list (see below), carry out self-directed learning and undertake a practical and written exam. There will also be continual assessment throughout the course as well as written assignments. **The above curriculum should be read in conjunction with the Certificate course which is pre-requisite to gain the Diploma qualification. The combined classroom hours of both the Certificate Course and Diploma total 120.**

Entry to the Diploma course is open to all students who have **successfully completed** the Certificate in Hypnotherapy from the MCCH. If you are a qualified hypnotherapist but not from the MCCH and would like to treat a weekend(s) as a masterclass or to refresh your skills you will receive a CPD and Certificate of Attendance of the subjects undertaken. You will not be eligible to receive the Diploma qualification. **Completion of both the Certificate and Diploma will earn you the letters DCH after your name and will entitle you to apply to the GHR, IHA and BSCH for full Practitioner Status.**

**Cost is £1295.00 (No Vat) payable at commencement of course**

It may be possible to carry out your Certificate and Diploma on a one to one basis at a time to suit you and over a staggered time period. However you must complete the minimum hours within each module to meet the criteria of the Diploma and the GHR. Alternatively, if already a qualified hypnotherapist and wish specialist training, please contact your preferred trainer.

### **Principal MCCH, Trainer (Cumbria)**

Hazel Thomson B.Sc. DHyp, PDCHyp. Post Graduate Certificate Counselling, BSCH Reg, HA Reg

Hazel trained with the London College of Clinical Hypnosis and holds a Certificate, Diploma and a Post Graduate Diploma in Clinical Hypnotherapy. She also holds a certificate from the British Medical Hypnotherapy Examinations Board as well as a Post Graduate qualification in Counselling. She widened her experience by attending many workshops including those facilitated by Ernest Rossi, David Grove and NLP trainers; Tim Hallbom and Suzi Smith. In addition to her training from Tania Prince in EFT and Deep State Re-patterning, she also added Theta Healing and EMDR to her clinical tool bag. Hazel has 25 years post qualifying experience in private practise having owned 'The Complementary Clinic' in Aberdeen before moving to Manchester to establish The Manchester College of Coaching and Hypnotherapy. She lives in Appleby, Cumbria and divides her time between private consultancy and CPD training. Her particular focus now is EMDR, EFT and further development courses, e.g. parts therapy.

### **MCCH Trainer and Training Manager Scotland (Glasgow) and Birmingham**

Andrew Griffiths NLP Practitioner, DCH, GHR Reg

Andrew holds qualifications from MCCH but has also trained with Mike Mandell in Canada and Andrew Parr in London. He is passionate about hypnotherapy training because it allows him to pass on his many skills and techniques he has acquired over the years. He has developed an online Anxiety Programme called 'Anxiety Unplugged' as well as an accredited online hypnotherapy course for those who wish to undertake distant learning. This course can be upgraded to comply with other Association standards. More recently he has become an FAA Level 3 First Aid Trainer for Mental Health in Scotland.

He is Director of his own media company but employs managers so he can concentrate on what he loves doing; helping others

### **MCCH Trainer, and Regional Training Manager (Greater Manchester)**

Ron Pusey DHyp, NLP Practitioner, GQHP, GHR Reg

Ron is proud to have trained with MCCH and runs a lively practice both as a therapist and trainer in Derbyshire. Ron is registered with the Complementary and Natural Healthcare Council, is a CRSST Accredited Practitioner, NLP Practitioner and GHR Registered Practitioner.

Ron has been a personal and business development trainer for over 25 years working across Public Private and 3rd Sector
